PROFESSIONAL EXPERIENCE

Cloud Engineer (Azure) — Cloud & AI Training

Present - 09/2025 · Self-training

AZ-104 certified (Microsoft Azure Administrator), with a personal focus on cloud architecture, automation, and AI. Flagship project: "Job Finder" — a multi-agent AI pipeline on Azure that automates job offer sourcing.

GitHub Actions

Docker

- Designed a two-layer Azure landing zone (platform + application) with reusable Terraform modules (network, compute, data, AI, messaging, monitoring) and remote state
- Built a secretless CI/CD pipeline with GitHub Actions and OIDC federated credentials — zero stored cloud credentials, terraform plan on every PR, apply on merge
- Developed a Python multi-agent pipeline (offer-fetching, cv-analysis, matching, cv-review, cleanup) orchestrated via Azure Service Bus and Container App Jobs, using pgvector (cosine similarity) and Azure OpenAI (GPT-4o-mini + text-embedding-3-small) for semantic matching and scoring
- Built a FastAPI backend (JWT auth via Microsoft Entra External ID) and a Next.js 14 frontend, secured end-to-end with private networking (VNet, private endpoints/DNS), Key Vault, least-privilege RBAC and managed/workload identity
- Set up observability with Application Insights and Log Analytics, KQL-based alerts, and a running PR-by-PR journal documenting every technical decision
- Orchestrated an AI-assisted development workflow: up to 4 Claude Code agents running in parallel for implementation, Claude for architecture and planning discussions, and an autonomous Claude-based reviewer agent integrated into CI/CD for automatic code review on every PR

C# Developer — Akanea

09/2025 - 05/2025 · Permanent

Developed new features and fixed bugs on a transport management application, using C# and Oracle Database.

C#

Oracle Database

Azure DevOps

- Developed new features and fixed bugs on a transport management application using C# and Oracle Database
- Contributed to architecture improvements and Gitflow processes with Azure DevOps pipelines
- Contributed to the development of an internal framework and a hybrid client/web application (3-tier architecture)

VR Developer — LS Group

09/2024 - 09/2022 · Work-study program

Developed and enhanced a VR industrial application in collaboration with CEA, using Unity.

Unity

C#

Git

CI/CD

Agile Methods

- Developed and enhanced a VR industrial application in collaboration with CEA using Unity
- Improved UX and performance while following an MVC-inspired architecture

- Worked with GitFlow and CI/CD, contributing within Agile (Scrum/Kanban) teams

QA Tester / Tool Programmer — Reality Academy

08/2022 - 02/2022 · Internship

Designed tools and contributed to QA for VR e-learning training content.

Unity C# Git

- Designed a visual graph system to build VR training content
- Developed tools to speed up QA and Unity workflows
- Contributed to QA and improvements of VR e-learning content and website
- Set up and followed a test/acceptance plan (cahier de recette) to ensure smooth production releases

Student Projects — IIM

09/2024 - 09/2019 · Studies

Developed multiple projects in Unity and Unreal, with C# and C++ applications (gameplay systems, AI, networking).

Unity Unreal C# C++ Git Agile Methods

- Built systems including 3C (character, camera, controls), procedural generation, and multiplayer features (FPS, online Snake)
- Published a game on Steam and the Play Store
- Provided pedagogical support to classmates on coding problems and code reviews

EDUCATION

AZ-104 Certification

Azure, Virtual Machines, Networking, Storage, Identity (Azure AD), RBAC, Monitoring, Security, Backup & Recovery, Governance, Azure CLI / PowerShell, ARM templates, Bicep
Microsoft · 2026

Master's Degree in Game Programming (Jury Honors)

Unity, Unreal, C#, C++, OOP, 2D Mathematics, Algorithms, Integration, AI, Networking
IIM, Courbevoie · 2024

Bachelor's Degree in Sports Science (STAPS)

Pedagogy, Group Coaching, Adaptability to Different Audiences, Active Listening, Empathy, Program Design (APA), Motivation & Engagement, Communication Skills, Safety Awareness
UPEC, Créteil · 2016

VALUES

Excellence · Continuous Improvement · Knowledge Sharing

HOBBIES

Game Dev · Sports · Music
